2012 SIFE USA National Exposition

May 22-24, Kansas City, MO

Event Information

Universities in the United States that have active SIFE programs are invited to send a team to one of 11 Regional Competitions held around the country. Through a written annual report and live audiovisual presentation, teams will report the results of their community outreach projects to panels of business leaders serving as judges. The teams are evaluated based on how successful they were at using business concepts to improve the quality of life and standard of living for those in need.

Competing teams are divided among separate leagues, with approximately five to seven teams per league. On average, two or three teams from each league will be named regional champions and qualify for the SIFE USA National Exposition.

The SIFE USA Regional Competitions are challenging, team-oriented events that provide a forum for best practice sharing, encouraging and motivating the students to continually improve the quality of their programs. In addition to the competition, an all-day career fair and the Top to Future-Top Forum held during lunch further enhance the unique connections these events create among the student, academic and business leaders in attendance.

Thursday, March 22
